Year 3-Number and Place Value

Compare and order 3 digit numbers

Look at the three digit cards below:

How many different three-digit numbers can you make if you rearrange them each time?

Estimate how many you think you will make before investigating this.

Now look at these digit cards:

Do you think you will be able to make more three-digit numbers this time? Could there be the same amount or less? Explain why you think this before investigating again.
