Round any number to the nearest 10, 100, 1000...

Can you find a number that when you separately round to the nearest 10, 100, 1 000, 10 000, or 100 000 that it gives the same answer?

Example: 438 202

Rounded to the nearest 10 = 438 200

Rounded to the nearest 100 = 438 200 (same)

Rounded to the nearest 1 000 = 438 000 (different)
