

Year 6 Place Value

Read, write, order and compare numbers to 10,000,000.

Complete the statement below to make it correct:

$$3,476,159 > 3, _ _ 2, 896.$$

I have made a six-digit number. All of the digits are odd. The thousand and tens digits are the same, all of the other digits are different. What could my number be?

George raised £306,512 for charity. A local company donated a further £30,000. How much was raised in total?

I have a 7-digit number. It has six tens, five thousands, no hundred-thousands, three ten-thousands and nine hundreds. My number is even and is greater than seven million. What could my number be?

In one month, Mary walked 7,382,401 steps, Joe walked 7,322,948 steps and Matt walked 7,194,299 steps. Put these in order from who walked the least to the most.
